

#### **TCW CERAMIC SPRAY TDS & APPLICATION GUIDE**

Ceramic Spray is a spray on coating solution that protects smooth, non-absorbent surfaces against acid rain staining, UV & weathering. The product increases hydrophobicity and leaves a high gloss finish that feels extremely slick to the touch. The coating is very durable lasting up to 6 months. It can be applied direct to surfaces as a stand alone sealant or on top of existing ceramic protection products as a Topper.

#### **MAIN FEATURES**

- Simple Application
- Hydrophobic
- Strong Durability
- Slick Feel

#### **APPLICATION & USE**

This product should be used by spraying a small amount onto a cloth and buffing into the surface (ensure surface is clean and dry before applying). Take a secondary clean and dry microfibre cloth and buff to a clear slick finish.

Do not use in direct sunlight and do not allow to dry on the surface prior to buffing.
