

TCW CITRUS WASH TDS & APPLICATION GUIDE

Citrus wash is the ultimate grime remover targeting tough stains to leave your car as good as new. The formula is alkaline based and safe to use on any automotive surface or coating. With citrus solvent microemulsion and a high concentration of agents the product removes stubborn dirt with ease. It's safe to use on all vehicle surfaces and coatings, including Last Stage Protection (LSP). Please note Citrus Wash must be diluted as per the instructions before use.

MAIN FEATURES

- Economical & Highly Concentrated
- LSP Safe
- High Cleaning Power
- Alkaline Formula

APPLICATION & USE

This product is intended to be diluted and applied using a trigger or pump sprayer. After a short contact time the surface should either be agitated and rinsed, or rinsed with agitation, as required. For general cleaning, dilute with water one-part product to 50-100 parts water, depending on the degree of soiling. Stronger solutions may be employed, following a spot test on an inconspicuous area to ensure compatibility on sensitive surfaces.

The product should not be allowed to dry on the surface, so care should be taken in warm conditions including direct sunlight. Recommendation is to apply out of direct sunlight.
