

TCW LEATHER CLEANER & MAINTAINER TDS & APPLICATION GUIDE

Leather Cleaner & Maintainer is a water-based cream based on a blend of emulsified polymers. It is intended for use on modern automotive leather, which is routinely sealed and requires no replenishing (feeding) of oils. The carefully optimised blend is a good cleaner, enabling the removal of surface soiling. The polymers adhere to the leather surface, leaving a dry, natural finish without excessive slip. The superb leather fragrance provides a pleasant, lasting fragrance.

MAIN FEATURES

- Softens Leather Finishes
- Leather Fragrance
- Gently Cleans

APPLICATION & USE

This product is intended to be applied using a soft cloth or suitable applicator. For optimal cleaning, apply an initial, generous application to leave the surface thoroughly wet. After several minutes, the surface can then be wiped clean and allowed to dry naturally.
