

#### **TCW WHEEL WASH TDS & APPLICATION GUIDE**

Wheel Wash combines non-caustic alkalinity with a blend of surfactants, solvents and performance enhancers. The alkalinity provides the ideal conditions for cleaning, while strong sequestrants effectively break the bonds that hold soiling together. The surfactant / solvent blend supplies superb wetting for all types of soiling. It is ideal to use alongside TCW Wheel Shampoo.

#### **MAIN FEATURES**

- Non-Caustic
- Extreme Cleaning Power
- Safe on Sensitive Finishes

#### **APPLICATION & USE**

The product is intended to be applied by spraying onto the wheel and allowing a short contact dwelling time. Agitate where required with appropriate brush / brushes and then rinse off using a pressure washer for best results.

The product should not be allowed to dry on the surface so care should be taken in warm conditions including direct sunlight.
